

Lindab Coverline™

Lindab SRP Click

Timeless roof in no time at all

Click your way to a perfect roof

Do you dream of a roof suitable for a turn of the century villa, cottage in the woods or functional new home you're thinking of building? Or maybe you need a durable roof for that rental property you're planning on renovating?

The inspiration for Lindab SRP Click is taken from the traditional standing seam roof. You simply click the profiles together with no need for special tools. You soon have an elegant, timeless roof, reminiscent of solid craftsmanship.

Choose from several classic and modern colours. No matter what building you put the seam profiles on, you get a beautiful, durable and easy-care roof that looks attractive for many years to come.

Lindab SRP Click in brief

- elegant and strong
- suitable for both older and newer houses
- easy to install
- minimal maintenance
- lightweight
- comes with all the accessories you need
- guaranteed service life
- high quality and finish

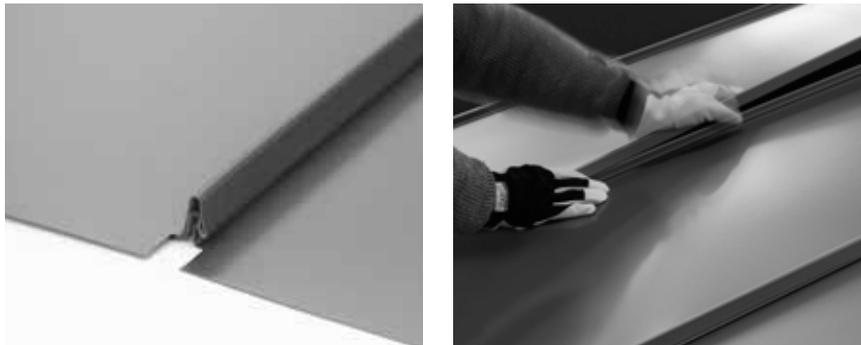

Easy-lay profiles which are suitable for most roofs

With Lindab SRP Click, you get a roof that looks like a classic and professionally laid seam roof. You do not need any special abilities; it takes no time at all to lay the roof profiles. Lindab SRP Click is recommended down to a 14° pitched roof, will fit most types of roof and is particularly suitable where the roof surfaces are free.

Nooks and crannies are not a problem

Do you have a roof where you have to take dormer windows and gutters into consideration? Since Lindab SRP Click is easy to lay, if you are a fairly practical person you can do most of the work yourself. Working around obstacles does require a little more of the person doing the job, as you'd expect.

Would you like to learn more about how to lay Lindab's seam profiles? Then contact your nearest Lindab stockist.

Accessories for almost every need

Flashings

We have a wide selection of flashings to give your roof the perfect finish.

Fasteners

Our fasteners are available in matching colours and are stainless steel for maximum durability.

Roof drainage

With Lindab Rainline you get a roof drainage system as durable as your new roof. Complete solutions in the colours and sizes you need.

Roof safety

The Lindab roof safety system gives you individual solutions and components that provide the best protection.

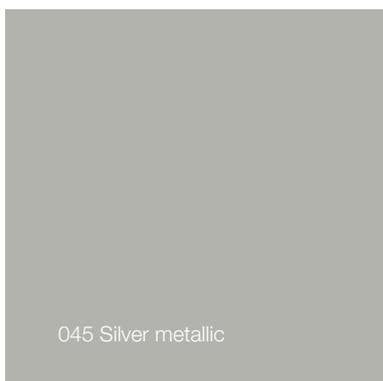

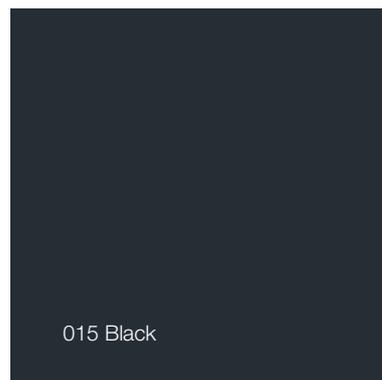

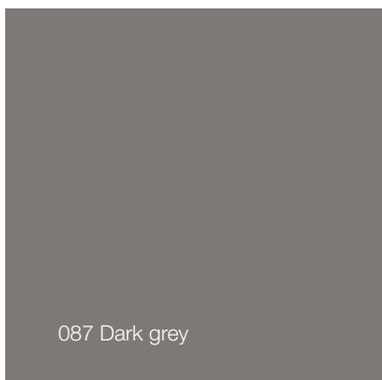

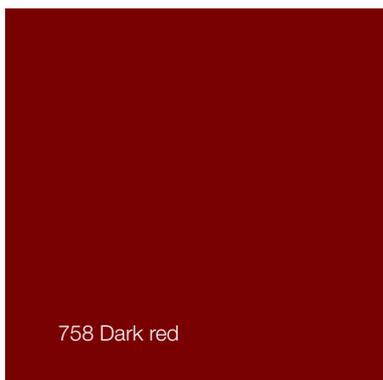

The many different shades allow you to create a stylish overall impression.

Discharge hoods

We have discharge hoods for different chimney sizes.

Strong coatings in various in several different colours

Lindab SRP Click is available in several different colours in the market's most tried and tested coating system.

HB Polyester is a 50 mu thick, durable coating that has high colour resistance, good corrosion protection and resists scratches well. The coating system is ideal for harsh environments.

Lindab is an international group that develops, manufactures, markets and distributes products and system solutions of thin sheet metal and steel that simplify construction and improve the indoor climate.

Our range includes everything from complete construction systems to individual components for homes, commercial properties and industrial premises.

The Lindab Group has approximately 4 400 employees in 31 countries. Its head office is located in Greve near Båstad in north-west Skåne.
